

汽车玻璃包边系列

超大模柱间距，立式锁模，立式（卧式）射出系统。

Huge mold column spacing, vertical clamping. Vertical (horizontal) Injection System.

射出单元多重监视，时间，位置，压力保护，射出精密敏感，确保成型玻璃不破裂。

Injection unit multi-monitor, time, location, pressure protection, Injection precision-sensitive, Ensure the glass is not broken.

独特的模缸结构，大大降低了大型机工作台离地高度（AK系列工作台离地高度在1.2米以下）。

Unique mold cylinder structure, greatly reduce the mainframe table height from the ground (AK series table height below 1.2 meters).

合模抽真空、开模吹气功能齐全；手动、油压抽芯（中子）编程控制，三角窗、四角窗均可设定成型。

Vacuum Clamping, Function complete of open-mold blowing Manual, Oil pressure core (neutron) programming control, triangular windows, quadrangle windows can be set molding.

安全门，光栅多重保护，吊模架，模具举模装置配备齐全，大型模具安装迅速，安全。

Security doors, grating multiple protection, hanging mold, For mold device fully equipped, large-scale mold to install quickly and safely.

**AK- 6500**  
锁模力 650T  
Clamping Force  
射出量 800-8000g  
Shot Weight

**AT- 2500**  
锁模力 250T  
Clamping Force  
射出量 500-800g  
Shot Weight

**AK- Series**  
锁模力 250-650T  
Clamping Force  
射出量 300-8000g  
Shot Weight

**AK- 4500**  
锁模力 450T  
Clamping Force  
射出量 800-2500g  
Shot Weight
