

热固性系列

中文/英文电控，荧屏显示，双比例式压力，流量油路控制，机械结构强，射出压力高，适合一切热固性成型产品。

Chinese/English controller, screen display, double proportional pressure, oil flow control, strong mechanical structure, high injection pressure, suitable for all kinds products of thermosetting molding.

具备一切热塑性系列优点，可根据客户产品需求选用AT、AC、AK系列产品中的标准机型、滑板机型(单模滑板、双模滑板)，转盘机型(2站式、3站式或多站式)等多种机型。

Have all of advantages of the thermoplastic, according to the customers' products demands to choose standard type, sliding type rotary type and more of AT, AC, AK series.

针对热固性料的特性专业制造的螺杆、料筒，保证在较低的压力(50kg/cm²-80kg/cm²)就可以正常旋转加料。

According to the thermosetting material characters to manufacture special screw and hopper. Guarantee to charge normally under low pressure (50kg/cm²-80kg/cm²).

强化了射出系统，射出压力比热塑性系列高出20%以上。

Strengthen injection system: injection pressure is greater above 20% than that of thermoplastic series.

专业的顶出系统，确保在高温下长久使用，上下隔热板断热，油缸缸油封，油温稳定寿命长。

Professional ejector system, ensure long using life under high temperature circumstance, up and low adiabatic plate cut off heating, oil hydraulic cylinder seal, stable oil temperature and long using life.

AK-S-2M-BMC Series

锁模力 90-450T
Clamping Force
射出量 100-8500g
Shot Weight

BMC 计量机
Metering machine

双滑板式BMC直压机
锁模力 55T-250T
Clamping Force

AT-1000BMC直压机

锁模力 100T
Clamping Force

AK-S-BMC Series

锁模力 90-450T
Clamping Force
射出量 100-8500g
Shot Weight

热固性系列

AT-B Series

锁模力 40-450T
Clamping Force
射出量 65-2500g
Shot Weight

AT-2R.B Series

锁模力 40-450T
Clamping Force
射出量 65-2500g
Shot Weight

AT-DS.B Series

锁模力 40-450T
Clamping Force
射出量 65-2500g
Shot Weight
